

JOB CREATION

The task of job creation is one that is critical to every community. Primary employers bring new money into the local economy by exporting their products and services; in the process, wealth is imported into our community. This revenue becomes payroll, which supports the professional and retail sectors of our economy.

Promoting job creation also helps ensure employment opportunities for local residents and for the young people as they enter the job market.

Your support of the Economic Resource Council is an investment in Nevada County's future. Your time and your dollars are needed to support this valuable work.

The ERC...

is a non-profit corporation. It is a public/private partnership representing the efforts of local business and government. The goal of the ERC is to protect and enhance the quality of life in Nevada County by promoting primary job creation.

The **Vision** of the ERC is: To significantly contribute to a community that values and actively supports individual talent, economic enterprise and employment opportunity, regardless of age, personal wealth or ethnic background. ERC's efforts will both directly and indirectly provide value to local business, education, nonprofits, government, agriculture and the arts.

The **Mission** of the ERC is: To enhance the economic vitality of Nevada County by supporting the retention, creation, and attraction of primary jobs, while retaining our unique environment.
